'Feed Management System' caters for Feed Producers to control raw materials, production and customer sales. The system is fully traceable of Raw Materials to Finished Products to Sales to Customers.

The software comprises the following modules:

Raw Materials
The module accepts data input for
- Raw Material Purchases
- Raw Material Sales
- Raw Materials used in Production
- Raw Material Specification for acceptance testing.

Master Product
The module accepts data input for
- Creating of Products to be made and sold
- Uploading and Interfacing with Feed Formulation Software
- Product Control to allow for different feed sizes and packaging types
- Master Product Specification for acceptance testing of finished products

Production
- Allows for creating products to be scheduled for production
- Scada Control allows for interfacing with Extruder equipment.
- Extruder Performance Measuring
- Extruder Performance interfacing

NIR / Quality Control and Lab Results
- NIR Interface for Raw Material and Finished Product tests
- External Lab Results for independent testing of Raw Materials and Finished Products
-

- Customer, Supplier, Carrier and staff records

Security
- User Id Control
- User Rights to Save and Delete on each Screen
- User Rights Wizard
-

Sales
The module accepts data input for
- Customers
- Placement of Customer Orders
- Customer Pricing
- Both Raw Material and Finished Product sales

The software includes the following:

Reports/forms/graphs:
- Raw Materials Received by date range report
- Raw Material Total Stocks Report
- Raw Material Owing against Orders Report
- Raw Material Usage Report
- Raw Material Against Production Report
- Raw Material Location Report
- Raw Material Orders Report
- Raw Material Re-Order Report
- Produced Products Report
- Deliveries Report

- Pallets Owing Report
- Sales By Customer Report
- Sales By Docket No Report
- Sales By Product Report
- Sales by Finished Product Report
- Finished Deliveries Report
- Finished Pallets Owing Report
- Sales By Finished Docket Report
- Sales By Finished Customer Report
- Finished Product Rework/Transfer Report
- Finished Product Stock Report

Ordering
The module accepts data input for
- Placement of orders to Suppliers
- Supplier / Order Locations
- Deliveries

Maintenance
The module accepts data input for
- Maintenance Schedules and Requests
- Plant Recording

- Finished Product Run Nos Report
- Finished Product Run Adjustment Report
- Finished Product Stock Allocated Report
- Finished Product Sold by Location Report
- Maintenance Request Report
- Maintenance Schedule Report
- Re-Order Parts Report
- Maintenance Check List Report
- NIR / Lab QC Results Report
- Lab (Wet Chemistry) Report

Wizard Programs:
- Scada Data Upload Wizard
- Raw Material Sale Delivery Docket
- Finished Product Production Wizard
- Finished Product Estimator
- Upload Feed Formulation Diets Wizard
- Archive Finished Product Control Records Wizard
- Master Product Control Copy Wizard
- Finished Product Sales Delivery Docket Wizard
- Upload Raw Material Specifications Wizard

- Upload NIR Data Wizard
- NIR Production Data Wizard

The **Benefits** of '**Feed Management System**' include:
- Substantial Labour Costs Savings
- Reduced Fixed Operational Costs
- Miminise Training Effort and Cost
- Help is Always On Hand
- Timely Information
- Easy Report Production – All at the Click of a Button
- One Stop Environmental Reporting
- Focus on the Business and Not on the Technology
- Open Access to All Users
- Clear Accountability and Time Management
- Traceability for Every Step in the Process

The **Features** of '**Feed Management System**' are:
- One System for all Data
- User Customisable
- Provides Up to the Minute Reporting
- Fast Data Entry
- You Decide What Is Reported
- Customised Work Flow
- Conversion and Set Up is Easy
- User Access Defined
- Windows Based Technology
- Easy interface capability with weight scales, monitoring equipment and accounting packages.

Pricing

Pricing is $100 Australian Dollars per month subscription.

Payment is via our website www.cyberrob.net

You also get free upgrades, bug fix release patches, and you become part of our networked development partnership program where you can ask for additional changes to the system to suit your business.

Our system is quite unique in its ability to adapt to your business using special object programming technology

Any additional changes is chargeable to you but at very competitive rates.
